Honorable Lucille H. McCullough
c/o House of Representatives
Lansing, Michigan

Dear Representative McCullough:

I urge that you support wholeheartedly the adoption of the proposed Michigan Sunday Selling Bill which has been introduced in the House.

It is regrettable that legislation is necessary to regulate Sunday selling because of the handful of characters who do not understand morals, the ambitions of youth, the problems of traffic, the sentiments of decent people, or the basic principles of sound operation.

These individuals who control the policies of their companies are sending up this trial balloon to see how far they can go in desecrating the Sabbath for profit.

I happen to be an executive in a national retailing organization with three stores in Dearborn, and an official of Mt. Olivet Church. My request to you comes from a person who sincerely believes in our moral obligation to society rather than the importance of the almighty dollar.

I am proud that my company and church join me in vigorously resisting and opposing this new concept of Sunday selling. I ask your help and support.

Sincerely,

WMB:lm
